

Modern Pathomorphology Laboratory

An accurate diagnosis is the key to
effective treatment

CELL DIGITAL LABORATORY

Our services

- Histological examinations
- Cytological examinations
- Immunohistochemical examinations (IHC) - more than 300 IHC markers
- Next-generation sequencing (NGS) - expanded panels covering 500+ genes
- Molecular genetic testing

Hereditary testing by NGS

- Hereditary cancer panels
- Clinical Exome Sequencing (CES) - up to 6,000 genes
- Whole Exome Sequencing (WES) - more than 20,000 genes
- Whole Genome Sequencing (WGS)
- NIPT - non-invasive prenatal testing by NGS

International diagnostic standards

- High-precision testing
- Modern methods for tumour diagnostics
- Advanced molecular technologies and NGS platforms
- Expert opinions and consultations with leading specialists from India
- Collaboration with international reference laboratories

Main areas of expertise

- Oncopathology
- Diagnosis of complex cases
- Expert opinion and review of prepared histology slides
- Selection of targeted therapy and immunotherapy
- Personalised diagnostics

Our locations

Head Laboratory

74B Sadyk Azimov Street, Tashkent

+998 33 566 65 33

Tashkent Branch

1 Asrlar Sadosi Street, Chilanzar District, Tashkent
Landmark: city branch of the Republican Oncology Centre

+998 33 466 64 33
